SATURDAY, MAY 11, 1879.
CITY AND COUNTY.

BRIEFINGS.

—Nice and cool.
—Tramps are scarce.
—The police court might as well take a vacation.
—The greentacklers meet in Lappin's block this evening.
—Rev. W. S. Roberts will spend the Sabbath in Waukegan.
—Mr. J. A. McCauley, special agent of the United States Pension Bureau, is in the city to-day.

—The strawberry festival of the First Methodist church will take place at Lappin's hall next Friday evening, May 17.
—Mr. G. G. Calkins, of Chicago, and formerly a resident of this city, is visiting friends here, and will remain until Monday.

—One of Janesville's fond papas has given his fourth boy, who only came to town the other day, the significant name of Omega.

—Johnny Dunn is back to Janesville again, having taken a few days lay off from the railroad business in Minnesota. He looks as if he had been good to himself.

—At the postoffice during the past week there were 126 money orders issued, amounting to \$1,598.26, and 118 paid amounting to \$1,727.77, making a total cash business of \$3,326.03.

—Arthur H. Allen, who has been in the office of the Western Union Telegraph Company, in this city, has gone to Milwaukee to take a place in the office of the Northwestern Telegraph Company.

—An old German from Milwaukee, two thirds drunk, and one third crazy, wearing a chip hat, an ulster, and his garments being arranged in like regard for changeable weather, was arrested and placed behind the bars to-day.

—The boys are hereby given the warning that no more firing of pistols and guns will be allowed in Bennett's grove, or anywhere else within the limits. The officers propose to make this matter a special order of business for Sundays, and will collar all offenders.

—Mr. G. W. Riley is fitting up No. 46, North Main street, in a very tasty and attractive manner, for restaurant purposes, and will throw it open to the public next Monday evening. Mr. Riley is a popular caterer, and his new stand will doubtless be a favorite resort.

—The red-ribbon May party is to be given at Apollo hall next Monday evening. The club as a body has taken no action by which the party is to be given under their auspices, though those who advertise the same assert that they propose to give the proceeds to the club.

—The Temple of Honor at its meeting last night, decided to give a strawberry festival Tuesday evening, May 21, and as a Committee of Arrangements, appointed Messrs. B. F. Crossett, J. D. King, E. L. Dimock, J. H. Field, S. Clark Barnham, J. S. Haggart, and Charles F. Glass.

—At the art study of the Mutual Improvement Club last evening, Dr. George Newman read a paper on Rembrandt, prepared by Mrs. D. D. Wilson, and Mr. G. F. Selleck read a paper on Rubens. At the next and closing art study Mrs. Kate N. Doggett, of Chicago, will give a talk on Raphael.

—Mrs. Crossett, met with a serious accident at the residence of her son Mr. B. F. Crossett, on Jackson street yesterday. She caught her foot in her dress, tripped and fell, breaking her right arm between the shoulder and the elbow. Mrs. Crossett is in her eighty-second year, which makes the injury more serious.

—The Musical Club will hold its next meeting next Tuesday evening, in the parlors of All Souls' church. The following is the programme: Allegro, from Sonata op. 42, Schubert; Miss Ella Smith; Four Songs without Words, Mendelssohn; Miss Jennie Stevens; "Aufschwung" and "Grillen," from op. 12, Schumann; Miss Lillie Lake.

—A horse belonging to a butcher just the west side of Palmer's drug store took a run this morning and made a lively scattering of pork and veal from the wagon as he pursued his journey. The wagon was somewhat smashed before the steed could be stopped. A good hitching strap well used would prevent a repetition of the scene.

—Officer Comstock, who took Clark to Waupun yesterday for stealing a cow, found out on arriving with his man, that Clark was well acquainted in that institution, it being the fourth time he had been there for a like offense. The first term he served two years, the second ten months, the third six months, and the one just entered upon is to be one year. He don't seem to learn to discriminate between his own cow and that of his neighbors.

THE WEATHER.

The thermometer at 7 o'clock stood at 46 degrees above and at 9 o'clock at 54 degrees above. Cloudy. One year ago to-day at corresponding hours the thermometer stood at 47 degrees and 57 degrees above.

The indications to-day are northwest to southwest winds, rising barometer, slightly cooler and partly cloudy weather, and occasional rains.

THE SCALES OF JUSTICE.

In the Circuit Court to-day an important case of some interest was on trial, it being brought by Henry Morton against Shubel W. Smith and others, for \$5,000 damages. Morton claims that in walking along Main street he slipped on the pavement in front of one of the stores of Smith & Jackson's block, and occupied by a tea company, and that he suffered injuries which entitle him to a recompense. He claims that the sidewalk was painted for advertising purposes, and that when there was any shower or rain it became so slippery as to be dangerous. Morton was crippled sometime before and was obliged to use a crutch so that he slipped more easily, and his crippled leg received fresh injuries. The defense set up that the walk was not in a dangerous condition.

SPORTS OF THE FIELD.

One week from to-day at the driving park will take place a manure in which there will be a fine show of speed by some fast flyers. It is expected that Charley Fuller's Annie B, record 2:40, George Doubleday's Resolute, and Fayette, record 2:40, and probably Joe Forbes' Annie Warner, will be present from Whitewater, besides some of the flyers from the training stable here, probably Lady McFarrige, Dixie, Northwestern and Roanoke.

The first League games in Milwaukee will take place May 14, 16, and 18, between the Cincinnati and Milwaukee. Those who want to see good sport should bear the dates in mind.

At Indianapolis yesterday was played a game to decide the tie game played on Tuesday. It resulted, Indianapolis 6, Milwaukee 1.

At Springfield, Ill., yesterday: Springfield Reds 8, St. Louis Browns 4.

At Lowell, Mass., yesterday: Lowell 2, Buffalo 1.

At Springfield, Mass., yesterday: Crickets 14, Springfield 4.

THE CHRISTIAN CONVENTION.

The convention of the Young Men's Christian Association closed last evening. An open air meeting was held in front of the post office, before the meeting at the church. This was led by Mr. Turner, Secretary of the Milwaukee Association, and Mr. W. E. Lewis, State Secretary. It drew together quite a crowd of listeners, but strict order was observed. Adjournment was taken to the Court Street Methodist church, where the exercises opened with a half hour devotional meeting, led by Mr. Lewis. The subject of the evening was "Purposes of the Future, are they for Christ or Against Him?" Mr. Lewis opened the discussion and was followed by Mr. Turner, a representative from the Madison Association, and Mr. Spofford, of Chicago. The remarks were well to the point and decidedly interesting. At the close of the discussion a vote of thanks was passed to the citizens of Janesville, for their kindly treatment of delegates, and to the Court Street Methodist folks for their courtesy in allowing their edifice to be used for the purposes of the convention, and to all others who had helped to make the meeting a success.

The convention is pronounced to be one of the best ever held in this city, in the interest manifested, and the degree of instructiveness.

A QUEER CASE.

Justice Balch has returned from Mauston, where he went to testify in some civil suit. During the present term of the court there, a peculiar criminal case was tried. A farmer, who had married a widow, who had a grown up daughter, was arraigned on the charge of illicit intercourse with the step-daughter, by whom he has had two children. Since his marriage he has also had two or more children by his wife. By thus raising a double family he got into trouble. He confessed himself guilty, the old woman admitted that the charge was true, as did also her daughter, but they all thought it was a justifiable way of doing, and found no fault with it. He pleaded guilty to the charge, but the Judge held that it was not adultery, but simply fornication, and imposed the startling penalty of thirty days in jail and \$70 fine. The court based its decision on the fact that the step-daughter was an unmarried woman, and had she been married, the same crime would have sent the accused to the penitentiary for a term of years. This is somewhat of a new phase of the law to many of the legal fraternity, who are discussing informally the pros and cons of the case.

Womanly Elegance and Grace.

There are few among our fair readers who would not gladly possess the rosy complexion, the beautiful form, the cheerfulness and elasticity of spirits, that good health always imparts. Parker's Ginger Tonic will restore these feminine attributes to thousands whose shattered constitutions are due to functional derangement. It radically cures Dyspepsia, gives tone to the enfeebled organs, dissipates Headache, Neuralgia and Nervousness, relieves painful Periods, and safely establishes regularity of the female functions. It soothes the nerves, imparts ease and strength to mothers themselves, and through the milk to their nursing babes, prevents the Nervous and Constipation peculiar to ladies in a delicate condition, and greatly relieves the sufferings of this period. It acts like a charm on the digestive machinery, speedily counteracts the weakening effects on the bowels of excessive heat, indigestion, or impure water, and is warranted to cure the worst forms of Colic, Cramps, Diarrhoea, Dysentery, Bloody Flux, Cholera Infantum, and even Asiatic Cholera if taken in time. It will be remembered that in giving the views of prominent lumber dealers, in an article published in these columns last week concerning the outlook for the ensuing season, it was predicted that the probable amount of logs harvested in the Wisconsin district would fall far short of the lumber landed at the mill last year. In confirmation of this view of the matter, there was a letter received by a prominent manufacturer of this city on yesterday, containing information, which if true, will go far toward verifying the prediction. The letter was written on May 1 at La Crosse, Wisconsin, by the president of the Black River Log Driving association, who had just returned from a trip to that stream and its tributaries. After thoroughly canvassing the situation, he gives it as his opinion that the number of logs harvested in the Wisconsin district during the highest estimate, exceed 50,000,000 feet. A careful estimate was also made on the probable number of logs obtained by the local lumber companies, and it was learned that the amount, all told, will not exceed 25,000,000 feet. It is thus evident that logging operations by that company were to be suspended on Wednesday last. The letter closes in congratulatory terms respecting the success of the results of operations on the Black River, which exceeded the most sanguine expectations, when the obstacles which had to be overcome were taken into consideration, and to use the words of the writer, "They had every reason to congratulate themselves on their good fortune in securing the amount which no doubt would now be successfully harvested."

In the interior of Russia there are said to be large accumulations of grain which cannot be moved to the ports; consequently there has been a large movement by rail to Galatz, and from thence to Vienna via the Danube, from whence it has been exported to South Germany and other parts of interior Europe. Up to April 1 there has been sent by the route 50,000 quarters of grain. In the Danubian districts there were also important grain reserves, which will shortly be moved, as the Danubian Navigation company had just put on twelve new steamers for the transport of grain.

In referring to the grain trade of Philadelphia, The North American says: The enormous increase in the shipments of corn from this port has been the subject of universal comment in commercial circles. The receipts at this port for the four months of the year were 9,315,000 bushels, which is more than that of either of the other ports. For the month of April the receipts were 1,000,000 bushels, a record for the month. This is an increase of more than 100 per cent over last year's figures, and a record for the month of April. The increase is due to the fact that the commerce of Philadelphia, which has been encouraged by the favorable facilities for the handling of grain for export.
